OVERALL SCORES

The Park District defines the measurement as the average score of all facilities, on a scale of 0 to 100, from the Park District's Facility Report Card from the current year indicating quality and maintenance of the facilities. This measure builds on the success we have seen with the Parks Report Card.

What outcome are we trying to achieve?

- Maintaining and Improving our Infrastructure

Who are the stakeholders impacted:

- Park patrons, residents, and staff

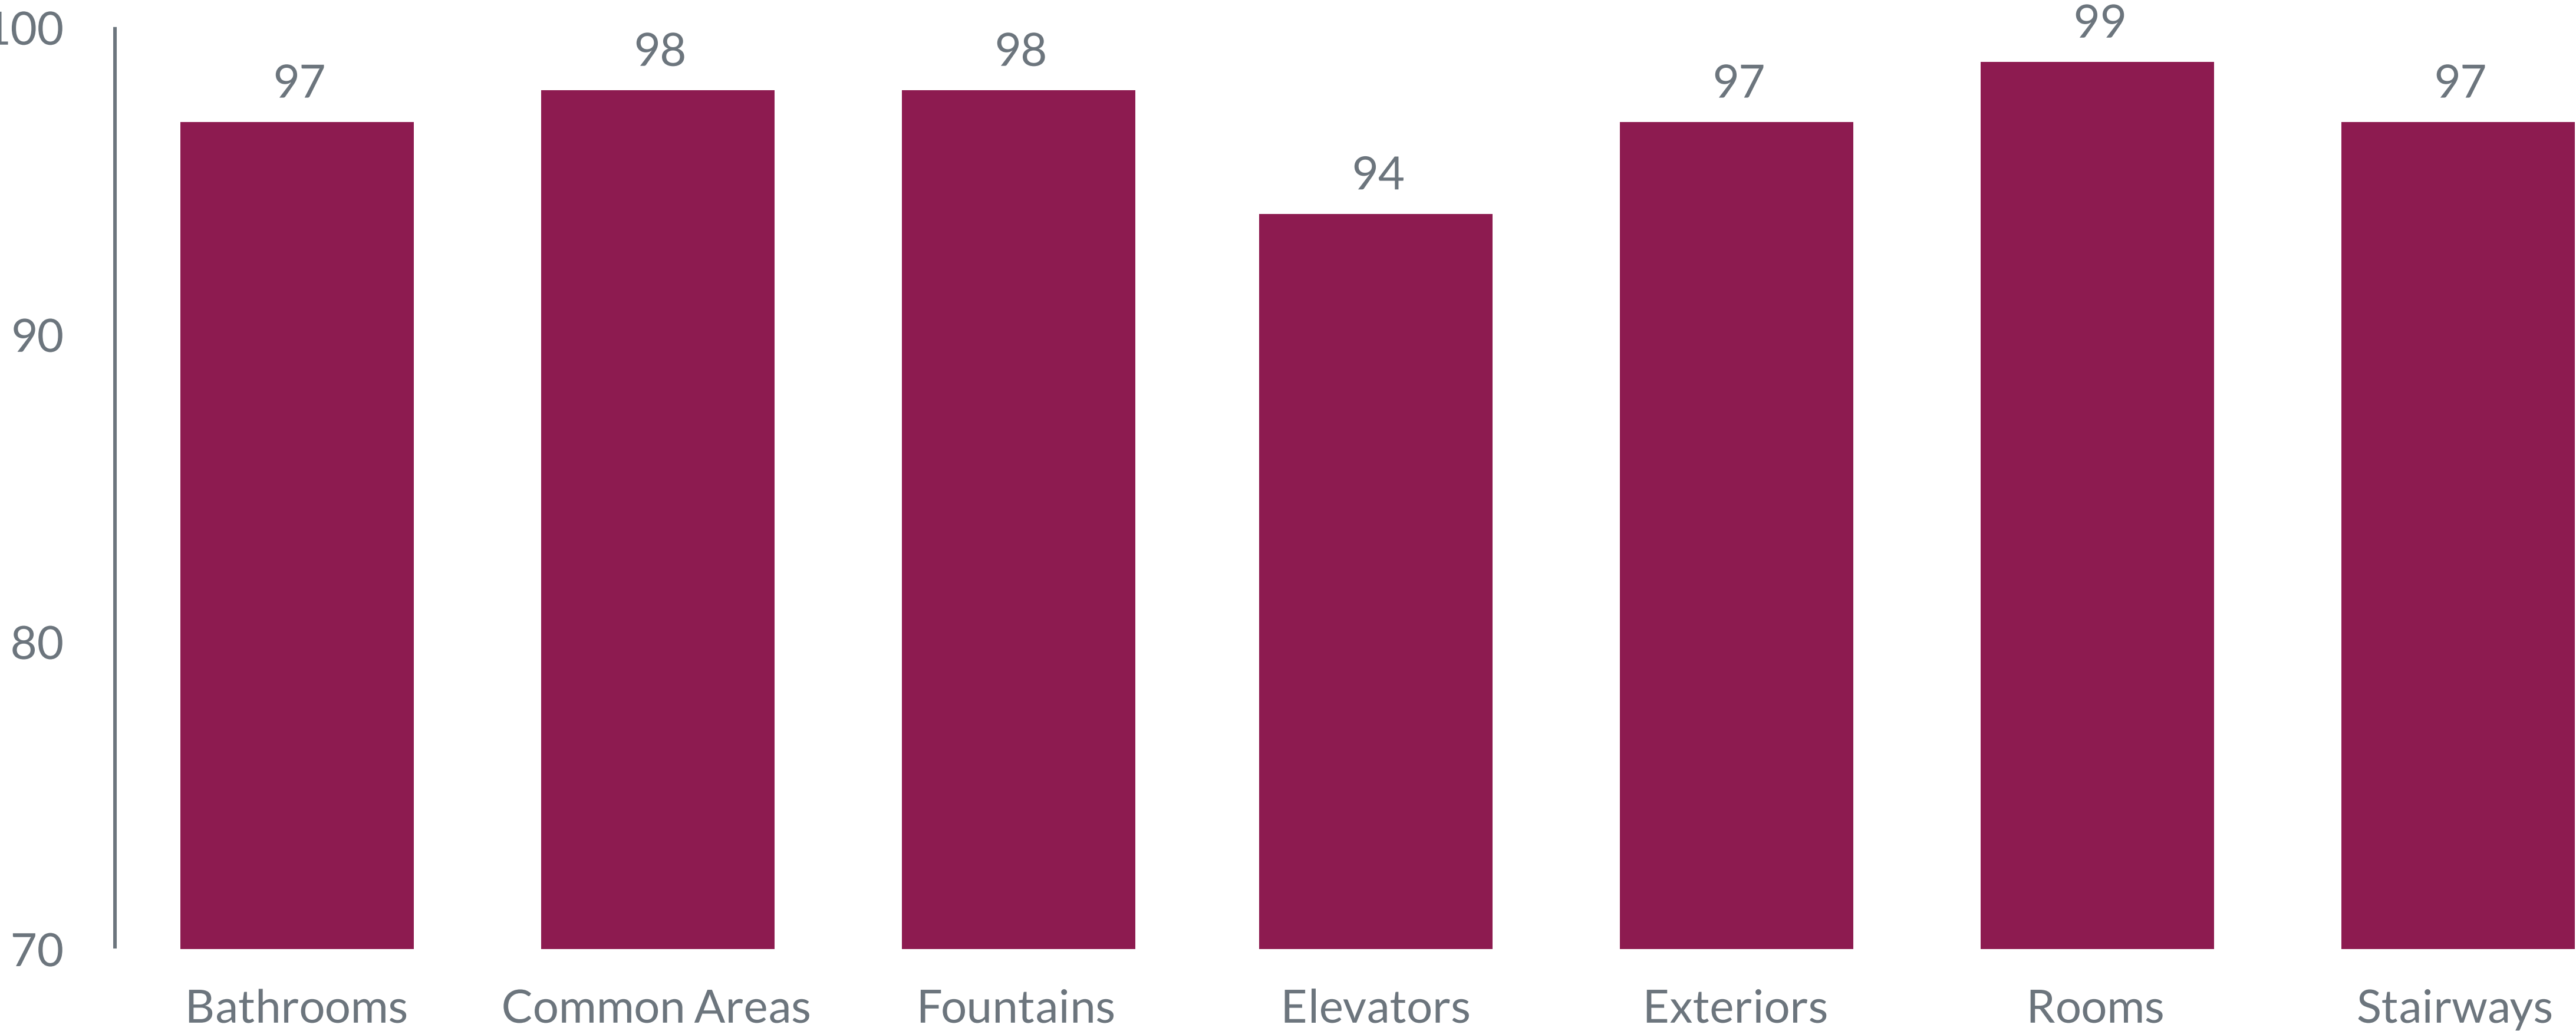

What does the data say?

- Highest scores are Austin Gardens, Field Center, GRC, RCRC, and Stevenson all scoring 100. Lowest score is Andersen (82), primarily due to missing vent covers in the bathrooms that have since been replaced.

What is driving the data?

- The maintenance scheduled kept by the Parks and Planning department
- Systematic investment in facilities through the CIP
- The report card is measuring conditions of features present. So it is still possible for an outdated facility (such as Field Center) to earn a very high score.
