Staff and Commissioner Wollmuth attended the variance meeting at the Village of Oak Park where the zoning change was presented to their board of trustees and received 7-0 approval to pass the zoning. The only item left now is to work with ComEd to see how close we can get to the lines which will dictate how many rows we will be able to do. The Board asked if we needed to update the contract to specifically say the exact location of the solar and were assured the contract's language was correct. The Board was informed that depending on the rows, the price may differ slightly and finally they were informed the PDOP would be applying for the rebate of \$422,000 shortly. **The motion was passed by a roll call vote of 5:0.**

III. PARK AND PLANNING COMMITTEE

IV. ADMINISTRATION AND FINANCE COMMITTEE

- A. Community Service Award Discussion – Executive Director Arnold informed the Board that six individuals have been nominated for the Community Service Award. The Board agreed on the nominations and responded that the individuals are going to be proud of the work they have done and being honored by the District. **No action is needed by the Board on this item.**
- B. Elected Officials BBQ Update – Executive Director Arnold noted that the Elected Officials BBQ is scheduled for October 8, 2025, at Cheney Mansion. Sweet Baby Ray's will be catering for the event. **No action is needed by the Board on this item.**
- C. Board of Commissioner's General Practices Manual Update – Executive Director Arnold noted that the Park District's elected Board of Commissioners use the General Practices Manual in their day-to-day workings with the Park District. As such, the manual was last approved in September 2024. Since the last approval, updates were made to the manual including the listing of current partnerships and the updating of the COW meetings which

will be taking place every month but July and August. **This item will be brought before the Board on the consent agenda at the September Regular Board Meeting.**

- D. Proposed 2024 Tax Levy – Mitch Bowlin informed the Board that the Park District funds part of its operations through property taxes. The Property Tax Extension Limitation Law (PTELL) limits the dollar amount of the tax levy increase to an amount no greater than the consumer price index (CPI) or 5%, whichever is less. Staff are budgeting for a 4.4% increase as discussed with the Board during the Capital Improvement Plan review. Discussion took place on the possible differences we could expect and how the other entities are working with possible changes forthcoming. Also noted were the federal cuts that schools, libraries, and townships social services are experiencing. The Board noted with the work that we have put into our budgets that we are in the best position we could plan for. **No action is needed by the Board on this item.**

V. RECREATION AND FACILITY PROGRAM COMMITTEE – None.

VI. NEW BUSINESS – The Board discussed possibly combining the upcoming budget meetings to one night as one of the members wouldn't be able to attend both meetings. It was suggested for both meetings to take place on one night, October 9. All were in agreement of the combining of the meetings to one night.

The November Committee of the Whole Meeting is scheduled for Thursday, November 6, 2025, at 7:30pm. The November Regular Board Meeting is scheduled for Thursday, November 20, 2025, at 7:30pm. All meetings will take place at the John Hedges Administrative Center. At the end of my report, there are some events you may consider stopping by.
2. **Gold Medal** – The American Academy for Park and Recreation Administration (AAPRA), in partnership with the National Recreation and Park Association (NRPA), awarded the Park District of Oak Park the Gold Medal award at the NRPA conference on September 19. We are all extremely proud of this highest honor for the District as well as for the community! Check out our video: <https://youtu.be/v0OYgZFF4Lg>
3. **Best of the Best** – The Park District of Oak Park was recognized and awarded with the Best of the Best Green Practices Award for the 10th year in a row as well as the winning of the Arts Award for our partnership with Festival Theatre. The presentation of the awards will be held on Friday, October 24 at Chevy Chase in Wheeling; we have two Board members, five staff, and Peter Andersen and Martha Moylan of Festival Theatre attending to accept the awards.
4. **Distinguished Accreditation** – The Illinois Distinguished Accreditation review took place on September 25 at the Hedges Administrative Center. To receive accreditation, an agency must receive a score of 480, with a score of 500 being a perfect score; there is the ability to score some bonus points during the review as well. The PDOP scored 502.21, a testament to the hard work of staff's daily efforts!
5. **CAPRA Accreditation** – The CAPRA review took place the first week of May with the PDOP meeting 100% of the standards. The PDOP was recognized at NRPA and the next accreditation will be 2030.
6. **Frank Lloyd Wright (FLW) Race** – This year's FLW race will take place Sunday, October 19, 2025. The race will include a 5K Run/Walk, 10K Run, a Youth Mile for ages 6-14, and new this year there will be a Lil Runners 50-yard dash for 3-5 and will begin just east of the high school on Ontario & Elmwood. All registered runners for the 10K, 5K, and youth mile will receive a long-sleeve FLW t-shirt to add to their collection. Staff are also looking for volunteers for the event. For additional information on how to be a volunteer visit: [FLW Races Volunteer Information](#) .
7. **Field Center Project** – A construction meeting was held on October 7. The excavation contractor requested additional space to store soils on-site in preparation for footing excavation to begin. An additional 20 x 30ft area was identified and incorporated into the construction site. Excavation work has been delayed until the epoxy coated rebar arrives. It was expected to arrive between 10/13-10/17. The concrete contractor and the Rammed Earth Contractor will be preparing their separate mock-ups at the Houch's (concrete) yard. Based on our last meeting, they will have a cooperative relationship and provide good communication to coordinate work. The Rammed Earth Contractor has prepared three design mixes and had them tested for strength, two of the designs were

successful and passed the strength test. The concrete contractor will produce three mock-ups to test out three colors so that the best color choice can be made. Leibe has received a good price regarding timber work on the roof due to lower material pricing. This will have a downward effect on the overall project budget. We are expecting an updated budget and schedule by October 11 from the contractor. Unofficially, we expect the project to carry into mid-June 2026. The Park District will be handling purchasing FFE items such as furniture and acoustic curtain panels for the room divider and stage. There will be additional work required per the partial MWRD permit including enhanced storm water management, requiring additional design work by Terra and the contractor. Regular Construction meetings have been moved to Tuesday mornings from Monday.

8. **Andersen Park Improvements** – The Anderson Project is nearing completion. The playgrounds, fitness and spray pad have been installed. Forever Lawn turf has been installed. Paver retaining walls at the new northwest side entrance have been installed. Drainpipes, catch basins, and the connection to the village sewer system have been completed. Concrete walks and deck have been completed. The two abandoned light poles have been removed. Landscaping has been taking place, the earth work for the rain gardens has been completed, beds cleared, top soil has been installed, and grass seed planted. Plantings are taking place under Patti Staley's direction. Decorative stones were scheduled to be in by October 11. The spray pad was scheduled to be tested on October 10. Remaining work is expected to be substantially completed by October 17. However, there are some interior decorative fences that will be delayed and will be installed by the first week of November. This will not delay the park opening.
9. **Cheney Mansion Geothermal Well Project** – The Geothermal Well installation part of the Cheney Geothermal Project was completed over the summer. Restoration work on the well field has been completed, as well as the removal of one tree, site grading, and installation of the paver walk. Grass seeding has been accomplished. Restoration of the garden area is being planned and will take place next spring. The Cheney Mansion Geothermal HVAC installation project went out to bid on Demand Star on September 18. A mandatory pre-bid walk through took place on September 23 and the bid opening took place on October 9 at 10:00am. Three bids were received out of five companies that attended the pre-bid walk through. The base bid included installation of all HVAC equipment necessary to heat and cool the first and third floors. An Alternate was included to install all equipment necessary to heat and cool the second floor. All Base Bids were significantly over the total project budget. Staff and Mark Nussbaum, the engineer on the project, discussed possible paths forward. The submitted bids will be rejected. A new bid will be prepared and advertised on January 7, with a bid opening on January 28 with possible approval on February 5. The project will feature a new design utilizing less expensive equipment and ductwork, a base bid, and two alternates for the second and third floor work.
10. **Longfellow Park Improvement** – The PDOP received a \$600,000 OSLAD for park improvements to include a new playground, splash pad, pickleball courts, etc. The project bid was scheduled to open on October 10 and a bid opening to be held on October 30. Staff are planning to present lowest responsible and responsive bidder's proposal to the Board for discussion and approval at the November COW and the Regular Board Meeting.
11. **CRC Solar Project** – The Park District has entered into a contract agreement with Windfree Solar following the Park Board's approval at the Continued Board Meeting on September 4. A kick-off meeting took place with Windfree Solar, engineer, Charlie Saville, and PDOP staff on September 23. The schedule has been changed for substantial completion to take place by June 15, 2026. The Park District has also entered into an agreement with Energy Tax Savers to apply for a federal grant that

could be valued at 30 to 50 percent of the total project cost if certain US equipment sourcing percentages are met. Windfree is working on a project schedule and starting design process.

12. **Rehm Pool Project** – The Park District hired Perkins & Will (PW) to complete a Rehm Pool Master plan in 2023. We received the IDPH permit on November 7 and notified the project team as soon as we received it. The contractor has completed pool tiling work, gutter grate system has been completed off-site and brought on-site. Pool painting is taking place and is targeted to be complete by October 14. In the filter room, a separation tank has been completed, and additional plumbing work was performed. Staff are planning to fill the pool and have it operational between 10/18-10/22 with IDPH to be scheduled on-site on October 24. Ornamental fencing and landscape work to take place after the pool painting is completed.
13. **Splash pads** – All splash pads are closed as of October 9 and will be winterized in the coming weeks.

OCTOBER 2025

Updates & Information

BUSINESS OPERATIONS

Finance

Mitch Bowlin, Director of Business Operations

- There was an attempted data breach at the Park District last week. Fortunately, the cyber security systems put in place with the help of Noventech worked exactly as intended and even though the breach was attempted outside of business hours, IT was notified immediately and there was no access to our systems. There were still some lessons learned, though, and Noventech is working to better secure our VPN system to prevent a similar attempt in the future.
- Cook County has still not provided an estimate on when second installment property tax bills will be available. Staff are still comfortable with existing fund balances from a cash flow perspective.
- New P-Cards have been distributed to staff with an expense management system to process the monthly spend.

Historic Properties

Susan Crane, Historical Properties & Special Events Manager

Cheney Mansion

- September continued to be very busy with ten weddings in the month and three non-wedding private events. We will continue to wind down on our private events as we head into 4th quarter and increase our programming.
- Appointments for future events were very busy with 24 appointments throughout the month with 25% of those booking for future events. We also opened our 2027 calendar for weddings and booked three weddings. Bookings for weddings in 2026 look to be running slightly over budget at this point pending any cancellations.
- Program registration for fall has been good. Separating out our adult programs to just be Leisure and Lifestyle has made it easier for customers to find what we are doing as well as the two eblasts going out to our followers. As our calendar opens into four quarters from private events, we will continue to grow that revenue line.
- Fencing around the north garden came down in September, new pavers were put down making it more accessible and grass will be planted in October. New raised beds will be built and installed by Patti's team in spring 2026.

Pleasant Home

- September was also busy at Pleasant Home with six private events throughout the month as well as appointments of ten tours for future events.
- We were able to run more programs at Pleasant Home in September and had a great turnout for a Curious George themed family event and a Wine Tasting with Anfora. We partnered with a local musician and launched a new music program in early September to a very enthusiastic response with 25 attendees; we will be running this again in the Winter at Cheney.
- We continue to receive nice traffic for tours on Thursdays and Fridays and have received three new volunteers to join our docents with 2 more set to meet with our coordinators to set up scheduling. Marketing has been doing a push for docents in various outlets, and we continue to push in our bi-monthly eblast.

Community Events

- Movies in the Park wrapped up in September with a packed Scoville Park for a thoroughly "Wicked" evening. While Mother Nature tried to put a damper on it, we just had a small delay and picked up the movie where it left off much to the delight of the audience. There was a lot of clapping, cheering and of course singing!

Oak Park Conservatory

Patti Staley, Director of Horticulture and Conservatory Operations

- The Conservatory welcomed 1,793 visitors in the month of September.

- Fall Fest took place on Sunday, September 21 with over 2,000 visitors estimated. Incredible Bats engage visitors with their wildlife, visitors shopped the fall mum & bulb sale, and FOPCON offered activities for children in the Discovery Garden.

- A free lecture on Growing Garlic was held with 60 people.

RECREATION

Ridgeland Common Recreation Complex

Mike Baiardo, Superintendent of Special Facilities

Aquatics

- The Aquatics team has expanded use of the OPRF pool on Sundays throughout the 2025–2026 indoor/school season. This addition allows the District to offer three 90-minute lap swim sessions each Sunday.
- Lap swim participants may register for a full seven-week session or attend as one-day drop-ins. This expansion provides an additional 3.5 hours of lap swim per week compared to last year and allows staff to dedicate Fenwick Pool for swim lessons while using OPRF Pool for lap swim and aqua fitness programs.
- Lap swim participation growth has been driven by drop-in registrations. In Fall Session 1 (2025), there are 13 full registrants and 21 drop-in participants, compared to 12 total registrants in Fall Session 1 (2024).
- The Aqua Fitness program currently offers one class with 11 registrants, up from 10 last year.
- Aquatic swim lessons in Fall Session 1 (2025) conclude October 19, with Fall Session 2 beginning October 26. Total enrollment for Session 1 is 191 participants—33 more than last year.

- All Ridgeland Common Recreation Complex staff are preparing for Fright on Ice and Trunk or Treat on October 24, the Ice Arena's largest annual special event.
- Staff held Parent/Player Ice Bears Meetings on Monday, September 29, to review expectations for parents and players, the code of conduct, and the program vision for the season. Attendance was strong and engagement was positive.
- The Ice Bears program includes five teams this season, one fewer than last year, with two 8U teams, two 10U teams, and one 12U team, totaling 82 players.
- Hockey Academy continues its program restructuring, with all entry-level players age five and under now starting in the Learn to Skate program under Snowplow Sam. This change, implemented in spring, has reduced Hockey Academy registrations for ages six and under while increasing Learn to Skate participation among ages two to five.
- Adult Hockey programs continue to grow, supported by equitable drop-in registration options. While not a major revenue driver, this structure allows more participants to experience the program. Drop-in registrations have nearly doubled from 66 in 2024 to 109 in 2025.

- Skate Academy continues to show growth, with Fall Session 1 reaching 381 participants — 28 more than in 2024.
- Freestyle session visits have increased significantly, with 862 visits recorded in September 2025 compared to 648 in September 2024. The large increase is more visits but also one less week of programming in September 2024 as the ice arena opened for programming the Monday after Labor Day. This year programming and drop-ins, like Freestyle started the day after Labor Day Holiday.

Re: September 2025 Revenue Expense Report

Statement

Attached with this memo are the Revenue and Expense summary charts and reports. The 2025 Budget vs Actual chart shows total year-to-date (YTD) operating revenues, expenses, and net income compared to the YTD Budget. The Month Actual - 3 Year Comparison chart compares the month's actuals against the actuals for September 2023 and September 2024.

Overall operating revenues are under YTD budget expectations by 19%, due primarily to Cook County's delay in sending out the second installment property tax bills. Tax bills are normally mailed during the summer with an August 1 due date. The County has not yet released an update as to when tax bill will be mailed. Staff have reviewed existing fund balances and are confident that if the bills are issued before the fiscal year is closed, the District will be fine. Program revenue is 4% below YTD budget due primarily to low numbers in youth and adult tennis, adult sports leagues, youth and adult hockey, rink camp, preschool gymnastics, and gymnastics camps. Staff continues reviewing expense lines that may be reduced in order to offset the program revenue losses if those losses will not be able to be made up prior to year end.

Operating expenses are under YTD budget by 25%. Expenses in most subclasses are under budget, with the majority of this variance in materials and supplies and the Capital Projects Fund due to delays with projects at Rehm Pool and the Field Center replacement. Utility expense remains over budget due to ComEd bills from 2024 which were received after the date on which the District could accrue them back to the previous fiscal year. Wages and benefits remain below YTD budget due to vacant positions throughout the year.

As a reminder there were some significant changes to the fund structure for the 2025 Budget. Full Time Special Facilities Maintenance employees are now coded under Parks and Planning in the Corporate Fund, all CRC activity was moved to the Special Facilities Fund, fitness programing is now reported under General Recreation, and the Corporate fund has a monthly transfer to the Capital Fund.

Re: 2026 Budget and Appropriations Ordinance Update

Statement

Per Board direction, staff reduced the tax year 2025 levy to a 4.4% increase over the 2024 levy and covered the budget deficit in the Special Recreation fund by a fund balance transfer from the Recreation Fund. This change reduced the capital transfer from \$3 million to \$2.85 million annually from 2026 – 2030.

Discussion

As a result of the decrease in capital transfer, the following changes were made to the capital budget:

- The geothermal project at the Conservatory was removed
- The HVAC work at GRC was moved from 2026 to 2028
- The tennis court resurfacing at Maple was moved from 2026 to 2028
- The boiler replacement at Rehm Pool was moved from 2026 to 2028
- Phase Two of the Rehm Pool Master Plan was delayed one year to begin in 2030 instead of 2029

In addition, based on bids that have occurred after the 2026 – 2030 Capital Improvement plan, the following additions were made to the Capital Budget:

- \$466,000 was added to the CRC capital line to cover the solar project that will extend into 2026
- The geothermal budget for Cheney Mansion was increased from \$450,000 to \$750,000
- \$200,000 of revenue was added for reimbursement from the Austin Trust for construction of the Austin Gardens Environmental Education Center

Conclusion

The Administration and Finance Committee recommend staff release the 2026 Budget and Appropriation Ordinance for the 30 day public inspection period.

PARK DISTRICT of OAK PARK

Memo

To: Chris Wollmuth, Chair, Administration and Finance Committee
Board of Commissioners

Cc: Jan Arnold, Executive Director

From: Mitch Bowlin, Director of Finance

Date: October 10, 2025

Re: 2025-2027 Audit Engagement Letter

Statement

The Park District of Oak Park has used Lauterbach and Amen (L&A) as the auditor for the District's financial statements for fiscal years 2016-2024. In addition to auditing services, L&A provides actuary services as required for the pension and post-employment benefits portion of the audit, fixed asset services, and free training for PDOP staff.

Discussion

The contract extension will cover auditing the District's financial statements for fiscal years 2025-2027. The agreement will renew automatically in that time period unless the District notifies the audit partner in writing that we will be terminating our relationship with them.

Based on those experiences and their work with many other governments, specifically other park districts, we are comfortable with their quality of work and they assured the District that they would be able to continue scheduling the audit in a time frame that would allow us to meet all required deadlines. Staff feel like they have done a good job of balancing the due diligence required to do a thorough audit as well as working with staff to make the process efficient.

The new contract has the price increasing by \$400 for the 2025 audit and then \$600 increases in years 2026 and 2027. The full cost of the three-year contract is \$61,200.

Conclusion

The Administration and Finance Committee recommend approval of Lauterbach and Amen's proposal for auditing services for the years 2025-2027, in an amount not to exceed \$61,200.

August 07, 2025

Members of the Board of Commissioners
Park District of Oak Park, Illinois

We are pleased to confirm our understanding of the services we are to provide the Park District of Oak Park, Illinois for the years ended December 31, 2025, December 31, 2026, and December 31, 2027.

Audit Scope and Objectives

We will audit the financial statements of the governmental activities, the discretely presented component unit, each major fund and the aggregate remaining fund information, and the disclosures, which collectively comprise the basic financial statements of the District as of and for the years ended December 31, 2025, December 31, 2026, and December 31, 2027. Accounting standards generally accepted in the United States of America (GAAP) provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to supplement the District's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the District's RSI in accordance with auditing standards generally accepted in the United States of America (GAAS). These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The following RSI is required by GAAP and will be subjected to certain limited procedures, but will not be audited: management's discussion and analysis, the budgetary comparison schedules, GASB-required pension reporting and GASB-required other post-employment benefit (OPEB) reporting.

We have also been engaged to report on supplementary information other than RSI that accompanies the District's financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS, and we will provide an opinion on it in relation to the financial statements as a whole, in a report combined with our auditor's report on the financial statements: combining fund statements, individual fund statements, budgetary comparison schedules and other information as supplemental schedules.

In connection with our audit of the basic financial statements, we will read the following other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report: introductory and statistical information.

Audit Scope and Objectives - Continued

The objectives of our audit are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; issue an auditor's report that includes our opinion about whether your financial statements are fairly presented, in all material respects, in conformity with GAAP; and report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment of a reasonable user made based on the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements

We will conduct our audit in accordance with GAAS and will include tests of your accounting records and other procedures we consider necessary to enable us to express such opinions. As part of an audit in accordance with GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit.

We will evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management. We will also evaluate the overall presentation of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. We will plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the District or to acts by management or employees acting on behalf of the District.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is an unavoidable risk that some material misstatements or noncompliance may not be detected by us, even though the audit is properly planned and performed in accordance with GAAS. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform the appropriate level of management of any material errors, any fraudulent financial reporting, or misappropriation of assets that come to our attention. We will also inform the appropriate level of management of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

We will also conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, tests of the physical existence of inventories, if applicable, and direct confirmation of receivables and certain assets and liabilities by correspondence with selected customers, creditors, and financial institutions. We will also request written representations from your attorneys as part of the engagement.

Our audit of the financial statements does not relieve you of your responsibilities.

Audit Procedures – Internal Control

Our audit will include obtaining an understanding of the District and its environment, including the system of internal control, sufficient to identify and assess the risks of material misstatement of the financial statements, whether due to error or fraud, and to design and perform audit procedures responsive to those risks and obtain evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control. An audit is not designed to provide assurance on internal control or to identify deficiencies in internal control. Accordingly, we will express no such opinion. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards.

We have identified the following significant risks of material misstatement as part of our audit planning: management override of controls, improper revenue recognition, and general or local economic challenges. Planning for this engagement has not concluded and is subject to change.

Audit Procedures – Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of the District's compliance with the provisions of applicable laws, regulations, contracts, and agreements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion.

Other Services

We will also assist in preparing the financial statements and required audit adjustments, if any, for the District in conformity with accounting principles generally accepted in the United States of America based on information provided by you.

We will perform these services in accordance with applicable professional standards. The other services are limited to the financial statement services previously defined. We, in our sole professional judgement, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

You agree to assume all management responsibilities for the financial statement preparation services, and required audit adjustments, if any, and any other nonattest services we provide; oversee the services by designating an individual, preferably from senior management, with suitable skill, knowledge, or experience; evaluate the adequacy and results of those services; and accept responsibility for them.

Responsibilities of Management for the Financial Statements

Our audit will be conducted on the basis that you acknowledge and understand your responsibility for designing, implementing, and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, including monitoring ongoing activities; for the selection and application of accounting principles; and for the preparation and fair presentation of the financial statements in conformity with accounting principles generally accepted in the United States of America with the oversight of those charged with governance.

Responsibilities of Management for the Financial Statements - Continued

Management is responsible for making drafts of financial statements, all financial records and related information available to us; for the accuracy and completeness of that information (including information from outside of the general and subsidiary ledgers); and for the evaluation of whether there are any conditions or events, considered in the aggregate, that raise substantial doubt about the government's ability to continue as a going concern for the 12 months after the financial statements date or shortly thereafter (for example, within an additional three months if currently known). You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, identification of all related parties and all related-party relationships and transactions, and other matters; (2) additional information that we may request for the purpose of the audit; and (3) unrestricted access to persons within the government from whom we determine it necessary to obtain audit evidence. At the conclusion of our audit, we will require certain written representations from you about the financial statements and related matters.

Your responsibilities include adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements of each opinion unit taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the District involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the government complies with applicable laws and regulations.

You are responsible for the preparation of the supplementary information in conformity with accounting principles generally accepted in the United States of America (GAAP). You agree to include our report on the supplementary information in any document that contains, and indicates that we have reported on the supplementary information. You also agree to make the audited financial statements readily available to users of the supplementary information no later than the date the supplementary information is issued with our report thereon. Your responsibilities include acknowledging to us in the representation letter that (1) you are responsible for presentation of the supplementary information in accordance with GAAP; (2) you believe the supplementary information, including its form and content, is fairly presented in accordance with GAAP; (3) the methods of measurement or presentation have not changed from those used in the prior period (or, if they have changed, the reasons for such changes); and (4) you have disclosed to us any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information.

Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinions or add an emphasis-of-matter or other-matter paragraph to our auditor's report, or if necessary, withdraw from this engagement. If our opinions are other than unmodified, we will discuss the reasons with you in advance.
